

Disease and Investigations Forms

Disease	Investigation	Investigation Form
Anthrax	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Blastomycosis	All cases	CD-1, MO 580-2442 Blastomycosis Investigation Report
Botulism	All cases	CD-1, (For infant botulism - CDC 52.73 Guide to Investigation of Infant Botulism) Adult cases forms to be supplied
Brucellosis	All cases	CD-1, CDC 4.153 Brucellosis Case Surveillance Report
Campylobacterosis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
Cholera	All cases	CD-1, CDC 52.79 Cholera and Other Vibrio Illness Surveillance Report
Coccidioidomycosis	CD-1 (Not reportable, but MDHSS interested in receiving any reports)	CD-1
Creutzfeldt-Jakob Disease	CD-1	CD-1 (see CDIRM for additional follow-up criteria)
Cryptosporidiosis	All cases	CD-1, CD-18 Record of Investigation of Cryptosporidiosis Infection
Cyclosporidiosis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
E. coli O157:H7	All cases	CD-1, CD-2 CD-2 Record of Investigation of Communicable Disease or CD-2C Record of Investigation of Enteric Illness
Ehrlichiosis	All cases	CD-1, CDC 55.1 Tick-Borne Rickettsial Disease Case Report
Encephalitis, Arboviral	All cases	CD-1, CD-2B Record of Investigation of Encephalitis, Meningitis, or Invasive Haemophilus Influenzae Type b Disease
Giardiasis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
Glanders	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease

Haemophilus influenzae, Invasive	All cases	CD-1, CD-2B Record of Investigation of Encephalitis, Meningitis, or Invasive Haemophilus influenzae type b Disease, CDC-52.15N National Bacterial Meningitis and Bacteremia Case Report
Hansen disease (leprosy)	All cases	CD-1, CDC 52.18 Leprosy Surveillance Report
Hantavirus	All cases	CD-1, Hantavirus Pulmonary Syndrome Case Report Form
Hemolytic Uremic Syndrome	All cases other than E. coli	CD-1, Hemolytic Uremic Syndrome Investigation Report
Hemorrhagic fever (dengue, etc.)	All cases	CD-1 (see CDIRM)
Hepatitis A	All cases	CD-1, CDC 53.1 Viral Hepatitis Case Record
Hepatitis B, acute	All cases	CD-1, CDC 53.1 Viral Hepatitis Case Record
Hepatitis C	All cases that meet criteria	CD-1, CDC 53.1 Viral Hepatitis Case Record
Hepatitis Non-A, Non-B-c	Acute cases	CD-1, CDC 53.1 Viral Hepatitis Case Record
Influenza	All cases (laboratory confirmed)	CD-1, or lab report [must have jurisdictional info] (Influenza Investigation / Closure Form if appropriate)
Legionellosis	All cases	CD-1, CDC 52.56 Legionellosis Case Report
Leptospirosis	All cases	CD-1, CDC 52.26 Leptospirosis Case Investigation Report
Listeriosis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness) or (CDC 52.15N National Bacterial Meningitis and Bacteremia Case Report if meningitis case)
Lyme disease	All cases	CD-1, MO 580-1807 Lyme Disease Case Report
Malaria	All cases	CD-1, CDC 54.1 Malaria Case Surveillance Report
Meningococcal Disease	All cases	CD-1, CD-2B Record of Investigation of Encephalitis, Meningitis, or Invasive Haemophilus influenzae type b Disease, CDC 52.15N National Bacterial Meningitis and Bacteremia Case Report
Outbreaks	All occurrences	CD-51 Missouri Outbreak Surveillance Report
Plague	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Psittacosis	All cases	CD-1, CDC 4.93 National Psittacosis Surveillance Report Human Infection
Q Fever	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Rabies, human	All cases	CD-1 (Investigation to be supplied)
Rabies, animal	All cases	CD-1 (or lab report with jurisdictional info)
Ricin	CD-1	CD-1 (Form to be developed)
Rocky Mountain Spotted Fever	All cases	CD-1, CDC 55.1 Tick-Borne Rickettsial Disease Case Report

Salmonellosis	CD-1 (Multiple cases, unusual serotypes or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
Scabies	Not reportable, CD-1 if involved in control	CD-1 for single case, for multiple cases or outbreaks MO 580-1598 Nosocomial Outbreak Investigation Form
Shigellosis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
Smallpox	All cases	CD-1, (Form under development)
Staphylococcus aureus, vancomycin resistant	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Staphylococcal enterotoxin B	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Streptococcus Disease, invasive, group A	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Streptococcus pneumoniae, drug resistant, invasive	All cases	CD-1, CDC 52.15N National Bacterial Meningitis and Bacteremia Case Report and CD-2B Investigation of Encephalitis, Meningitis, or Invasive Haemophilus Influenzae Type b Disease if specimen is from CSF, or If specimen is from blood, joint, pleural or pericardial fluid complete CD-1, CD-2B
Strep, invasive, Group A	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
T-2 mycotoxin B	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Toxic Shock, Staph	All cases	CD-1, CD-26 Toxic Shock Syndrome Case Report
Toxic Shock, Strep	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Trichinosis	All cases	CD-1, CDC 54.7 Investigation of Trichinosis Surveillance Case Report
Tularemia	All cases	CD-1, VPH 5 Investigation of Tularemia
Typhoid Fever	All cases	CD-1, CDC 52.5 Typhoid Fever Surveillance Report (Carriers: CD-3A Carrier Agreement; CD 3 Typhoid Carrier Record)
Yellow Fever	All cases	CD-1, CD-2 Record of Investigation of Communicable Disease
Yersiniosis	CD-1 (Multiple cases or high risk*)	CD-1 for individual confirmed or probable cases, *(For multiple cases or foodhandler or child/adult care center attendee or employee or health care provider; CD-2 Record of Investigation of Communicable Disease or; CD-2C Record of Investigation of Enteric Illness)
