- Date Fields:
 - Display should include label, entry field, calendar icon, and format
[Label: (mmddyyyy)]
 - Display “Invalid Date” to the right of the Date field that is not a valid date (i.e. does not have a valid month day year combination) as soon as the user leaves the field. Earliest valid date is 01011800.
 - Date fields - listed above – 10 (must have day and slashes in this date so it must be exactly 10 characters)
 - When click the calendar icon and select a date, keep the cursor on the date field so the user can tab to the next field.
 - Only allow entry of numbers and slashes (no characters)
- For numeric fields, no entry of characters.
- Grid Sort
 - Places Grid sorted Type Ascending
 - When click column header in grid, check that the sort is currently on that column.
 - If true, Sort list on that column ascending/descending (opposite current sort)
 - If false, Sort list on that column ascending.
 - When click a column header to change the sort, restart the user on page 1 of the grid with the new sort order.
 - Dates sort include the month, day and year.
 - The Entered By name column sorts on Last Name and then First Name.
- At Page Load the following sections are NOT visible. NOT ENABLED. (change request 7/25/11) These sections are made visible/enabled when the question “Interviewed” is YES.
 - Interview
