DHSS/DAC LPHA SURVEY RESULTS DISCUSSION SESSIONS

FACILITATOR WEBINAR
FOCUSED PLANNING FOR GOVERNMENTAL PUBLIC HEALTH

A public health workgroup comprised of representatives from DHSS and Local Public Health Agencies was formed in early 2015 to:

- Engage governmental public health agencies to develop a consensus of priorities for the delivery of public health in Missouri that is focused on the role of governmental public health agencies.
- Foster relationships of trust that will facilitate the development and support of an agenda for governmental public health and inform the broader public health planning efforts underway in Missouri.
- Initial assessment work identified and developed issues statements for four theme areas for development of priorities, Data Development and Enhancement, Outreach, Workforce Development, and Foundations for Healthy Communities.
- Workshops were conducted at the Spring 2016 Public Health Conference to get feedback on the issues and build some consensus around those issues.
- Projects were developed in each of these four theme areas.
- Results from this survey will provide a baseline for evaluating progress in and across the four issue areas.
GOALS OF THE DIALOGUE SESSIONS

• Share back the results from the Foundational Programmatic Activities and Expertise DHSS/DAC Survey.

• Provide a opportunity for local health departments to interact with some of the data and discuss what some of these results mean for them in their local public health work.

• Identify strategies for actively increasing capacity to provide key services.

• Prepare people to effectively share their ideas at the conference in March.
PURPOSE OF THE SURVEY

The Foundational Areas – Programmatic Activities and Expertise DHSS/DAC Survey following survey was conducted to measure our capacity to conduct the activities that are important to governmental public health. It is based on a national standard being adapted to Missouri.

- Create a baseline measurement of current capacity
- Communicate the strengths and needs of Missouri’s public health system to legislators, the public and partners
- Set the agenda of priority focus areas (data, outreach, workforce development and foundations for healthy communities)
- Foster support of collaborative networks
- Attract additional resources for the governmental public health system
TOOLKIT

- **Original Databases**
  - Population Size
  - Region
- **Worksheets**
  - Chronic Disease and Injury Prevention
  - Communicable Disease Control
  - Maternal/Child/Family Health
  - Environmental Health
  - Crosscutting Services
TOOLKIT

- Detailed Facilitator Agenda
- Participant Agenda
- Participant Worksheet
- Basic Agreements
- Tips for Facilitators
- Questions and Comments
FACILITATOR AGENDA

• Preparing for the Session

• Agenda
  • Review Survey Project
  • Discussion Question 1: Is the combined value of “able to do well” and “very well” high enough to appropriately address the issue?
  • Discussion 2: What are three ideas you have that can help improve your capacity to provide that service? Discussion
  • 3: What kind of support do you need to begin to increase your capacity to provide these services?
  • Wrap-up

Note: facilitators may bring copies of the discussion notes from discussion questions two and three to the conference or they can send them via email to Steve Jeanetta (jeanettas@missouri.edu) or Jo Anderson (Jo.Anderson@health.mo.gov)
BASIC AGREEMENTS

• Listen respectfully to everyone. One person speaks at a time and no interruptions.
• Each person has equal time and opportunity to speak.
• Use "I" statements. Speak from your own experience.
• Sharing is voluntary. Everyone has the right not to speak.
• Respect time limits so everyone can participate
• Respect confidentiality
HANDOUTS FOR PARTICIPANTS

- Participant Agenda
- The worksheet(s) that you focus on (Chronic Disease and Injury Prevention, Communicable Disease Control, Maternal/Child/Family Health, Environmental Health and/or Crosscutting Services)
- Participant Worksheet (for participant’s use to record individual thoughts)
- Basic Agreements (it’s better if you put them on an easel pad or whiteboard where everyone can see them but a handout is ok as well)
TIPS FOR FACILITATORS

• Be sure to make sure everyone has an opportunity to participate.
• Ensure everyone has a voice.
• All ideas are relevant.
• Record participant comments on a whiteboard or easel pad.
• Ask Follow-up Questions (if there’s time)
• Refer questions if necessary.
• Don’t be afraid of silence.
CONCLUSION

- Questions and Comments
