

**Missouri has THREE NEW MCH-related Dashboards!**

- PAMR (Pregnancy-Associated Mortality Review Dashboard): <https://health.mo.gov/data/pamr/dashboard.php> ; provides data related to pregnancy-associated deaths by county, along with additional pregnancy related data.
- Newborn Hearing: <https://health.mo.gov/living/families/genetics/newbornhearing/dashboard-ehdi.php> ; provides data related to early hearing detection and interventions in Missouri.
- PRAMS (Missouri Pregnancy Risk Assessment Monitoring System): <https://health.mo.gov/data/prams/prams-dashboard.php> ; provides data on a variety of topic areas, including but not limited to pregnancy intention, folic acid consumption, contraceptive use, health insurance, prenatal care, breastfeeding, infant health care, alcohol and tobacco use, violence against women, and postpartum depression.

**Show-Me ECHO (Extension for Community Healthcare Outcomes) coordinates learning sessions that offer free continuing education. 89% of learners indicate changes to practice.**

Show-Me ECHO is a state-funded telehealth project operated by the Missouri Telehealth Network at the University Of Missouri School Of Medicine.

Videoconferencing is utilized to connect interdisciplinary teams of experts with healthcare professionals to provide a learning experience to advance skills and best practices. MU's ECHO program launched in 2014 to educate and train providers in specific disease states or conditions. Since that time it has grown to provide more than thirty different ECHOs related to pressing health needs, with many addressing maternal child health populations, including but not limited to: Building Healthy Communities, Show Me Strong Kids, Missouri Moms and Babies, Mother, Infants & NAS, Opioid Use Disorder, and Oral Health.

If you would like more information about SHOW-Me ECHO or would like to complete the ECHO Registration, visit [Show-Me ECHO: Move Knowledge, Not Patients \(showmeecho.org\)](https://showmeecho.org)

I see MOPHIMS in the MCH Services Scope of Work- what is it?

Referencing the MCH Services Scope of Work:

6.6 The Contractor, at a minimum of twice per calendar year during the effective dates of this contract, agrees to verify which of its employees are still employed and still require partner-level access to the Department's Missouri Public Health Information Management System (MOPHIMS). The Contractor shall perform verification and updates with the MOPHIMS Program Security Officer at Division of Community and Public Health, Bureau of Health Care Analysis and Data Dissemination.

13.2 The Contractor shall use information from MOPHIMS for programmatic purposes and ensure that information is appropriately protected to ensure confidentiality.

- MOPHIMS = Missouri Public Health Information Management System
- Request partner-level access for MOPHIMS through an ASAP request
- Please mark your calendar to update users twice a year: email the MOPHIMS Program Security Officer at MOPHIMSUSERGROUP@health.mo.gov and in Subject Line type "MOPHIMS Access Updates" to notify the PSO of employees who are no longer with the LPHA and need to have access removed.
- MOPHIMS website can be found here: [MOPHIMS - MOPHIMS Home Page](#)
- Find trainings here: [Health Data Training | Missouri Information for Community Assessment \(MICA\) | Health & Senior Services \(mo.gov\)](#)
- Sign up for Newsletter: Sign up for MOPHIMS User Group by sending an email to MOPHIMSUSERGROUP@health.mo.gov

In the subject line you will need to put MOPHIMS User Group. You will need to include in the email your name, position title, organization and email address. Once you have signed up, you will start receiving correspondence regarding time-sensitive information, as well as the newsletters.

REMINDERS

- February, 2023 (FFY 23) Invoicing tool/DH-38 due March 15th
- Proposed work plan amendment requests must be submitted by March 31, 2023.

Something to Think On

"For he who has health has hope; and he who has hope, has everything."

– Owen Arthur
